

DUALITY

Duality combines the violin and guitar with high-quality backing tracks to weave a sophisticated and enchanting musical tapestry, which is a unique and distinctive backdrop to any special occasion or function. Their extensive repertoire incorporates elements of timeless jazz standards, inspiring classical favourites, haunting Celtic folk melodies, Latin American and popular songs, and can be tailor-made to suit specific requirements.

Performances options include an acoustic duo for more intimate settings; or a more electric performance, accompanied by high-quality backing tracks, for larger functions.
